# Gumdrop

1

If you would like to use the included shoulder strap, please visit our website for instructions prior to case assembly.

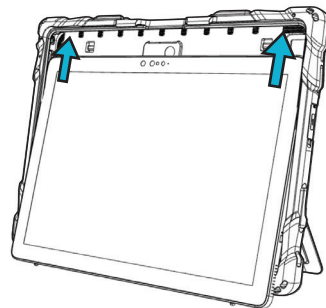

2

Open the Dell Latitude Tablet kickstand. Insert the open kickstand through the cutout in the case.

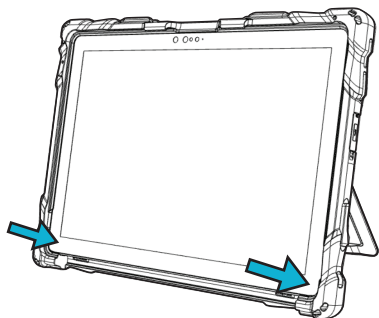

3

Push tablet past the upper side clips, then slide the top edge into the case until it is flush against the top.

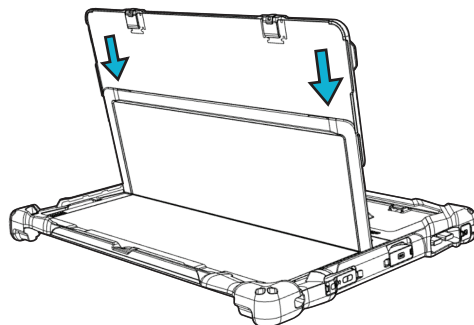

4

Push the two remaining corners of the tablet into the case. Make sure it is securely installed on all sides.

5

Flip the case over onto a surface. Open the kickstand and slide it through PC protector's side clips. Slide down until the 2 top clips is on securely.

6

Close the kickstand by pushing it past the two closure tabs.
