Gumdrop

1
Align the device keyboard under the bottom case's side clips on both sides.

2
Push the keyboard forward until it is flush with the front edge of the bottom case.

3
Carefully press the rear corner clips to snap onto the keyboard.

4
Hinge the top case's top interior onto the device screen. Rotate the case towards the back.

5
Press the upper side clips over the device, with pressure from both sides, to snap into place securely.

6
Repeat step 5 with the lower side clips.

Congratulations on your new case!

CRITICAL!
FOLLOW STEPS 1 AND 2 IN ORDER

Failure to do so may result in damage to the device.

1

Push the lower left and right side clips outward to release the bottom of the top case from the device.

2

Push the upper left and right side clips outward to remove the top case from the device.

3

Gently push the rear clips down to unhook from the device.

4

Push the left and right side clips down past the device, one side at a time, to release it from the bottom case.

The bottom shell can be recycled if the feet are removed!
