# Gumdrop

Installation

1 Remove Back Panel
Press firmly at the camera corners (marked with two dots) to pull off the back panel.

Install Screen Overlay
Peel off both protective films. Line up the overlay notch with alignment mark in the bezel.

2 Insert iPad
Locate the power button on your device, and place iPad face down into the frame. Make sure button match the cutouts.

3 Snap On Back Panel
Align the camera hole. Press firmly around all edges until fully snapped in.

Removal

1 Start at Camera Corner
Gently flex the rubber at the camera corner and peel back.

2 Remove Back Panel
Lift panel off on a flat surface while keeping iPad in frame.

3 Remove iPad
Lift iPad and overlay out of case.
